Dear Sir,

WebXTechnosoft – Mobile App-Based Hospital Management Solution

We thank you for showing interest in WebXTechnosoft and for your decision to implement a Mobile App-based Hospital Management System. In today's competitive healthcare environment, a mobile-first digital solution is essential for efficient hospital operations and improved patient care. An integrated mobile application helps hospitals manage departments, reduce manual work, and ensure real-time access to critical data. WebXTechnosoft provides a secure, user-friendly, and customizable Mobile App solution designed specifically for hospitals. The system integrates clinical, administrative, and patient-centric functions into a single platform.

The mobile application includes the following modules:

- **Pharmacy Management**
- **Laboratory (Lab) Management**
- **Operation Theatre (OT) Management**
- **Inpatient (IP) Management**
- **Hospital Operations Management**
- **Physiotherapy Management**
- **Patient Online Token & Appointment Management**
- **Online Test Result Display for Patients**

The proposed solution ensures role-based access, data security, and operational transparency.

It improves workflow efficiency, patient experience, and decision-making through reports and analytics.

The quotation and pricing are prepared based on the confirmed requirement for the above mobile application modules.

WebXTechnosoft – Mobile App–Based Hospital Management Software–Quotation

Modules & Features

(Customized Individual Design – Mobile Application)

Pharmacy Module

Inventory Management

- Add, edit, and manage medicines
- Real-time stock tracking with low-stock alerts
- Batch number and expiry date management

Sales & Billing

- Generate bills and receipts through the mobile app
- Apply GST and discounts
- Maintain complete sales history

Prescription Integration

- Link doctor prescriptions with pharmacy dispensing
- Prescription verification before issuing medicines

Reports

- Daily, weekly, and monthly sales reports
- Top-selling medicines analysis
- Export reports in Excel and PDF formats

Laboratory (Lab) Module

Test Management

- Add and manage lab tests with pricing
- Assign tests to patients via mobile app
- Track test status (Pending / Completed)

Result Management

- Enter and view test results
- Doctor access to lab results
- Patient-wise test history maintenance

Patient Record Integration

- Lab results linked with patient medical records

Reports

- Daily, weekly, and monthly lab summaries
- Test-wise revenue reports
- Exportable reports (Excel / PDF)

Operation Theatre (OT) Module

OT Scheduling

- Create and manage OT schedules
- Allocate surgeons, anesthetists, and supporting staff

Patient & Procedure Management

- Maintain detailed OT patient records
- Procedure type, diagnosis, and operation details

Reports

- OT utilization reports
- Doctor-wise and procedure-wise summaries

Inpatient (IP) Module

- Patient admission and discharge management
- Bed and room allocation tracking
- Inpatient treatment and progress monitoring

Hospital Operations Module

- Manage daily hospital operational activities
- Track departmental workflows and tasks
- Improve coordination between departments

Physiotherapy Module

- Schedule physiotherapy sessions
- Track patient therapy progress
- Maintain physiotherapy treatment records

Patient Mobile App Features

- Online token and appointment booking
- View lab test results through mobile app
- Patient history and visit records access

Additional Features

Admin Panel & Multi-User Login

- Role-based access (Admin, Doctor, Pharmacist, Lab Staff, OT Staff)

Custom User Roles

- Manage staff access and module permissions

Dashboard

- Overview of pharmacy sales, stock status, lab tests, IP details, and pending tasks

Reports & Export

- Print and export bills, lab reports, and inventory data

Security & Backup

- Secure login authentication
- Regular database backup for data protection

Description	Price(₹)
Software Package	95,000
Domain registration, shared hosting and software maintenance for 1 year	Free
SSL certificate	Free

Estimated Time : 30 Working Days

Total : ₹95,000

Payment Terms & Conditions

- **50% Advance Payment** at the time of Purchase Order
- 50% Remaining Payment on Delivery & Installation
- Once the project is started, it cannot be fully canceled.
- If the project is canceled mid-way, the client will be charged proportionally based on the number of working days completed.
- Payments are non-refundable beyond the proportion already billed.
- **THIS PROPOSAL IS VALID UNTIL : 12/01/2026.**

Note: Cost and delivery time may vary depending on additional features requested or changes to requirements.

Mode of Payment:

Bank Transfer

Account Number: 43732726418

IFSC Code : SBIN0000961

Bank Name : SBI

Bank Branch : SATTUR

UPI

- **Backend:** Laravel
- **Database:** MySQL

TERMS AND CONDITIONS

1. The client will provide all necessary data (medicine list, lab tests, patient data) in digital format.
2. Once software development starts, further design changes will be charged at ₹1,500 per hour.
3. Source code remains the property of WebXTechnosoft unless agreed separately.
4. The software includes only the modules and features confirmed in the quotation. Any additional requests will be quoted and billed separately.
5. WebXTechnosoft is not responsible for any loss, damage, or errors caused by misuse of the software or modifications by the client or third parties.
6. All client data shared with WebXTechnosoft will be treated as confidential.
7. WebXTechnosoft is not liable for delays or failure to deliver due to unforeseen circumstances (force majeure).
8. Payments are non-refundable and the cancellation policy is as specified in the quotation.
9. Payments via UPI (PhonePe: 93453 55464) or Bank Transfer.
